

Let Our Girls Take Care Of Your Girls!

Melissa Lee, MD, Marcie B. Hertz, MD, FACS, Rose Heller-Savoy, MD, Nancy L. Elliott, MD, FACS, Dana Holwitt, MD and Cheng Ow, MD

Here is one of the most experienced, well trained and dedicated physician breast teams in the nation, and they are here for you! Their amazing multidisciplinary facility combines expert radiologists dedicated solely to breast imaging with breast surgeons who are leaders in the latest techniques of breast surgery. And studies show that treatment by specialists improves breast cancer outcomes.

But beyond specialization, these women are a team: Fellowship trained breast imagers and Fellowship trained breast surgeons, working together all day long! This results in a streamlined, effective, state-of-the-art treatment process which is very special.

Interdisciplinary communication and coordination provide the basis of effective cancer care. Montclair Breast Center's unified team provides seamless expertise, from screening through diagnosis and treatment to follow up, which results in our extraordinary outcomes.

Let Our Girls Take Care Of Your Girls!

We understand the impact of the current financial crisis so please let us know if you need financial assistance.
