**Dr. Nancy Elliott, founder and director of
Montclair Breast Center, to Speak at Living Beyond Breast Cancer's
Stacy Goldstein Symposium on Breast Cancer**

Montclair, NJ (October 2004) Dr. Nancy Elliott, breast surgeon and founder of Montclair Breast Center and resident of Montclair, NJ was also given the honor of giving opening remarks and to make the introduction of Dr. Susan M. Love, a physician, writer, lecturer and “founding mother” of the breast cancer advocacy movement. This event, **Living Beyond Breast Cancer's Stacy Goldstein Symposium on Breast Cancer will take place at the Doubletree Hotel & Executive Meeting Center in Somerset, NJ on Saturday, October 30. Registration starts at 8:00 AM and Dr. Elliott will be leading the opening remarks at 9:00 AM and a workshop entitled The Latest Tools in Detecting Breast Cancer from 1:30-3:00 PM.**

Hope on the Horizon: Living Beyond Breast Cancer's Stacy Goldstein Symposium on Breast Cancer is set for October 30. This conference is sponsored by the Susan G. Komen Breast Cancer Foundation and other sponsors. The day's activities will include opening remarks by Dr. Elliott, keynote presentations by Dr. Susan M. Love and Dr. Raymond Chang as well as multiple workshops, networking and a light breakfast and lunch. Pre-registration is preferred, more information and registration can be accessed online at www.lbbc.org or by calling (610) 645-4567.

“It's important to saving lives that breast cancer be detected as early as possible. Women can help themselves through regular breast self-examination, digital mammography, ultrasound and MRI,” Dr. Elliott explains. “October Breast Cancer Awareness Month is a great reminder to everyone to keep up with proper breast care.”

About the Montclair Breast Center

Montclair Breast Center is an extraordinary facility that has earned the reputation as a premier, multidisciplinary breast center, which specializes in proactive breast healthcare, risk-reduction

techniques and the early detection and treatment of breast cancer. The Center includes a team of nationally recognized, dedicated breast imagers and breast surgeons who use the most sophisticated technologies and are committed to providing better breast care than anywhere. The Center provides routine yearly screening mammograms, diagnostic mammography and breast physical exams for those women who are at increased risk or have a breast symptom. Breast ultrasound is used liberally for screening and diagnosis and by the end of this year Montclair Breast Center will be the first free standing breast facility in the USA to offer specialized Magnetic Resonance Imaging (MRI) equipment. Additionally, minimally invasive biopsy techniques are available on site and can be performed during just one visit. Early detection and treatment of breast cancer is carried out with a caring collaborative effort treating the whole patient. For more information about the Montclair Breast Center, please call (973) 509-1818 or visit their Website: www.montclairbreastcenter.com.
