

Breast Cancer: Are You At Increased Risk?

Melissa Lee, MD, Nancy L. Elliott, MD FACS & Marcie B. Hertz, MD FACS

- A family history of breast or ovarian cancer on maternal or paternal side.
- Dense fibroglandular tissue on mammography.
- First full term pregnancy at age 30 or over; or no full term pregnancy.
- Your first period before age 12 and/or menopause at age 55 or older.
- Previous breast biopsy showing benign hyperplasia or fibroadenoma.
- History of post-menopausal hormone replacement therapy.
- Over age 60.
- Ashkenazi (Eastern European) Jewish Ancestry

If you answered yes to any of these,
you may need *more* than a yearly mammogram.

Be proactive: Schedule a consultation with the experts at Montclair Breast Center.
