

# LUSTER FOR LIFE; PASSION FOR EXCELLENCE

*Dana Holwitt, MD, Marcie B. Hertz, MD FACS, Cheng Ow, MD, Melissa Lee, MD, Stacey Vitiello, MD, Nancy L. Elliott, MD FACS, and Gail Quackenbush, MD.*

Montclair Breast Center is proud of Dr. Nancy Elliott and Dr. Dana Holwitt, this year's recipients of the American Cancer Society's Luster for Life Award.

We believe that our "teamwork" is what sets us apart. Our dedicated breast radiologists and nationally recognized breast surgeons join together to provide seamless expertise, from screening through diagnosis and treatment to follow up, in one comforting multi-disciplinary facility. For our patients this means no waiting for a call-back. They meet with breast imagers and have their results explained personally in one visit. Compassion and respect for our patients are key components of our excellence.

Our outcome statistics are extraordinary. Studies show that our patients with a diagnosis of breast cancer are much more likely to be diagnosed at Stage 0 or Stage 1 as compared to the national average.

In Montclair Breast Center's commitment to proactive breast care and education we have recently added an integrative medical service, offering workshops on nutrition, herbology, environmental concerns, exercise and relaxation/meditation, many of which are free and open to the public.
