

It's Breast Cancer Awareness Month Get A Mammogram You Can Trust*

Patient Shirley Feldman, Dr. Melissa Lee, Director, Breast Imaging, and Dr. Nancy Elliott, Director, Surgery.

When she had discomfort in her breast, Shirley Feldman dutifully went to a breast surgeon as her doctor recommended. She brought her most recent mammogram, performed at another facility, which she was told was normal.

At Montclair Breast Center her “normal” mammogram was reviewed and breast cancer was found. “The doctors and the teamwork at Montclair Breast Center found the breast cancer that others did not. I credit them for saving my life.”
