Dr. Nancy Elliott
Montclair Breast Center
37 No. Fullerton Avenue
Montclair, NJ 07042

Dear Dr. Elliott,

I want to thank you for explaining all the options available to me. You explained everything so clearly that my choices were all laid out and I had then only to choose what was right for me.

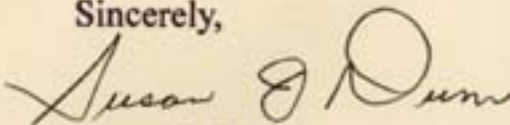

My MRI biopsy came back as benign breast tissue. A repeat MRI confirmed that it is no longer on the MRI films.

As a professional nurse I always stress to my friends and family that they should always choose to go to a specialist and also get a second opinion. If not for your expertise I would have undergone an unnecessary surgical procedure and anesthesia. Your time is valuable and I never felt rushed during our consultation.

Everyone I met at your Breast Center from the receptionist to the nurses were extremely caring and professional. When you are in a stressful situation having people treat you the way I was treated at your Center made it a positive experience. I am recommending your Center to family and friends.

Thank you for all you do and how well you do it.

Sincerely,

Susan J. Dunn
