

Dear Dr. Elliott, Dr. Lee &
Staff,

The Kindness, Compassion &
Care I've received as a patient at
the M.B.C. will forever be remem-
bered with heartfelt appreciation.

What began as a very "frightening
experience" for me was soon replaced
with a sense of security & assurance
that I was being well taken care
of at a "wonderful facility". The
entire staff who took part in my
treatment consisted of knowl-
edge-
able, well informed caring people
who showed a genuine concern for
my well being. Even Ebony (at the
front desk) & Roseann & Rose (in billing)
were so kind & helpful. I endured
several M.R.I.s which I got through
with "ease" thanks to Chlorissa, a
wonderful technician who was so comforting

& patient.

Last but not least, Dr. Elliott¹⁰⁶
whom I truly adore. She is not
only a "great surgeon" but also
a genuine, compassionate &
caring Dr. Her big smile &
"sunny positive disposition" had
a way of "easing" all my fears
& anxieties with each visit.

If not for my yearly
mammography & her ex-
pertise, a "5 millimeter,
pre-cancerous spot" would
not have been detected &
removed at such an "early stage".

I feel truly blessed
to be under the continuing
care at the M.B.C.

God Bless You All -
Sincerely, Terri
